

Melissa Beaudry

Public Affairs Consultant

Melissa began granting writing when she was a student at Florida State University studying Urban and Regional Planning and International Affairs. She was a student leader for several organizations and wrote various Local and National Private Foundation grants including, Clinton Foundation, Jenzabar Foundation and Gates Foundation, to support the work of the student organizations. She then continued to expand her grant writing and management capabilities as the Outreach Director for North Florida Land Trust where she managed a Wells Fargo Foundation grant and wrote several others for environmental preservation.

In 2015 Ms. Beaudry joined the Langton Consulting team as a grant writer working on grants ranging from children's mental health, fire and safety, economic development and access to healthy foods. She has also taken on the role of Lead Planner for the State Expenditure Plan for the State of Florida, outlining the allocation of \$300 Million for environmental and economic recovery for the Gulf Coast of Florida and led the effort of developing a theory of disbursement for the funding to local governments. She also plays a lead role in the firms' efforts regarding Direct Component funding to Florida Counties. Ms. Beaudry has secured over \$14 Million in funding for her clients since joining the firm and her specialties include; environmental restoration and preservation, public health, sustainability and innovation and community economic development.
